The Nintendo Generation

Kids across the country are obese in alarming numbers. This is due to too many soft drinks, too much fast food, too much time in front of the television and computer, and lack of exercise. In generations past, kids had to go outside and play baseball, basketball, and football to entertain themselves. Today all they need to do is push a few buttons. Even interaction with friends doesn't require being together. Text messaging and computer chatting is the new playground.

Perhaps it's time to reconsider. Carbon Rec offers lots of opportunities for involvement. Soccer is the most played sport in the world and growing in popularity all the time. Tennis is enjoying a rebound in popularity throughout the world. We also offer a tumbling program, wrestling, basketball, volleyball, and football. There are dance studios and cheer leading programs in the community.

Your child isn't interested in sports? Consider a kayak class, a rock climbing workshop, get him involved in mountain biking, or sign him up for the ski bus.

Your child wants to do something we aren't currently offering? Call us. We may be able to start a new program.

We want to know what you are thinking. Send us an email:

The philosophy of Carbon Rec • 636-3702

The mission of Carbon Rec is to provide recreation and lifelong learning opportunities to every resident of the county.

We attempt to keep costs as low as possible in all our programs. Thanks to the County Commission and Carbon School District fees are half that of other communities.

People who are involved in wholesome recreational activities are happier and better adjusted than people who are not. We do not give cash prizes nor banquets. Prizes for league champions are modest in nature. Participation is always our emphasis, not winning.

Our goal is to exceed the expectations of every participant in every program. While that is not always possible, that is always our goal. If we come up short, we want to hear from you. While complaining does no one any good, constructive criticism can be very productive and is always welcome.

We will never turn a child away from one of our programs for inability to pay. If you can't afford a program for your child, ask us. We may be able to help.

We are proud to offer the most diverse recreation program in the state. Even so, we are always looking to broaden our offerings. It is our pledge that we will offer anything that fits within our mission and that the community will support. If you want to do something, call us. If you have a talent you would like to share with the community, call us. We are always open to new ideas.

Carbon Rec Tackle Football

Carbon Rec is entering its seventh season of tackle football this fall. Six teams and well over one hundred boys will compete. Carbon Rec would like to invite the community out to watch and support the boys.

Games will be played on Saturday mornings at Mont Harmon Junior High School and Tuesday evenings at Carbon High School. Having an opportunity to play under the lights at Carbon High will be the highlight of the season for most of the boys. There are six teams in the league this year. Four teams are made up of boys from Price and Wellington, and two teams from Helper. Team names are the 49ers, Raiders, Dolphins, Eagles, Vikings, and Steelers.

Each team has a number of volunteer coaches who will donate many hours to help make this league a success. The head coaches for each team are Paul Richey (49ers), Jack Byrge (Raiders), Bradley Shaw (Dolphins), Kerry VanDyke (Eagles), Brock Marchello (Vikings), and Bill Martinez (Steelers).

The staff at Carbon Rec would like to thank all of the volunteers and acknowledge their hard work and dedication to the youth of our community. Without the volunteer help of the parents and community members this league would not be possible.

Carbon Rec assumed responsibility of the youth football program in 2004. We have strived to improve upon and increase participation and quality of the league. Equipment improvements have been one of the main focuses of the recreation department. The County Commissioners have allocated over \$10,000 over the seven years toward replacement of equipment. This money is in addition to the fees collected. It is by far the most expensive program we run. Similar programs along the Wasatch Front cost \$250 and more. Because of the overwhelming cost of equipment used for the program it is virtually impossible to replace everything at any given time. We have made it a priority to replace helmets, shoulder pads, and uniforms in small increments each year in order to have the safest possible equipment.

WHERE DO YOU WANT TO RUN?

Two of Utah's most scenic endurance running events are right here, in our back yard!

Crandall Canyon Memorial Run

**1/2 marathon, 10k and 5k
Saturday, July 31, 2010
Huntington, Utah**

This is a beautiful, fast, down-hill course and is the highest 1/2 marathon in Utah. The race takes place on a National Scenic Byway. The half marathon starts at the northwest corner of Cleveland Reservoir, running past Electric Lake and following world class fly fishing areas of the beautiful Huntington River. The 10k and 5k start along the river and all 3 races finish at the entrance to the Crandall Canyon Mine road.

Little Grand Canyon Marathon

**Marathon, 1/2 marathon and 10k
Saturday, September 11, 2010
San Rafael Swell, Eastern Utah**

Run through some of the most beautiful desert scenery in the world, the San Rafael Swell. Follow the towering Red Rocks of Buckhorn Wash as you run through the Jurassic, Triassic and Cretaceous Era's. There are actual dinosaur footprints on the side of the road and you also run directly in front of one of the largest Native American Pictograph Panels in the State (The Buckhorn Panel).
